950-0745 SS1C PRESSURE SWITCH BLEED ORIFICE KIT

In order for the SideShot SS1C pressure switch to function properly for the intended application, the proper bleed orifice has to be selected as determined below.

1. Upon installation, if the vent connector length is less than 3.1 equivalent meters (10 feet), then the **smaller** opening #52 bleed orifice should be used.
2. Upon installation, if the vent connector length is greater than 3.1 equivalent meter (10 feet), then the **larger** opening #40 bleed orifice should be used.
3. Once proper bleed orifice has been determined, install into the Bleed Orifice port as indicated.
